

# GRANITE REEF KAYAKING TRIP MAP & KEY

## DESCRIPTION:

### Granite Reef Trip: 13 miles (4.5 hours)

- Meet & Launch at Saguaro Lake Ranch
- Paddle down the entire river for 13 miles to the exit called Granite Reef.
- Our shuttle will pick you and the equipment up from Granite Reef and bring you back to the ranch.

4

## Available End of Spring/Summer/Beginning of Fall

- The beginning portion of the river is seasonal. Each Fall, the Stewart Mountain Dam reduces the amount of water being released which causes the river level to decrease, making it unsuitable for rafting and other water sport activities.
- The following Spring, the dam increases the amount of water released, making the water level suitable for rafting and other water sport activities.
